INDEX TO AGRICULTURAL ENGINEERING

Volume 26—January to December, 1945

Issue	Pages
JANUARY	1- 40
FEBRUARY	41- 88
MARCH	89-128
APRIL	129-176
MAY	177-224
JUNE	225-264
JULY	265-304
AUGUST	305-344
SEPTEMBER	345-392
OCTOBER	393-440
NOVEMBER	441-488
DECEMBER	489-536

This is a combined alphabetical index to the contents of AGRICULTURAL ENGINEERING by authors, regular features, professional interests, and subject matter, including plants and animals concerned, materials, machines, processes, structures, and key words in titles.

A

Ackerman, F. G.
Prerequisites of a sweep stubble mulch tillage implement for the southern high plains ... 249

Ackerman, W. F.
Making hay with an automatic tying pickup baler ... 27

Accreditation of agricultural engineering curriculums (committee report) ... 515

AGRICULTURAL ENGINEERING (Agricultural Engineers)
Rural industry—a challenge for agricultural engineers ... 55
Postwar objectives for agricultural engineers ... 65
Ag engineer speaks from the farm (letter) ... 68
Do I want ag engineering? ... 158
Postwar opportunities in agricultural engineering ... 277
Industry requirements of professional agricultural engineering education (committee report) ... 504
Accreditation of agricultural engineering curriculums ... 515

Aikman, J. M.
Mechanization of sumac harvesting and processing ... 243

Air cleaners and precleaners for engine protection ... 242

AIR CONDITIONING (See Ventilation)

Air flow, Resistance of ear corn to ... 19

Amundson, L. R.
Determination of band stresses and lateral wheat pressures for a cylindrical grain bin ... 321

Anderson, W. S.
Some new sweet potato machines and equipment ... 280

A.S.A.E. history, Some early ... 204

Ashby, Wallace
What's happening in farm buildings? ... 101

AWARDS (See Medalists)

B

Bactericidal lamps, Farm application of 67

Baler, Making hay with an automatic tying pickup ... 27

Bales, Device for handling ... 424

Barger, E. L.
Mechanization of sumac leaf harvesting and processing ... 243

Bell, A. J.
Tractor seats (letter) ... 330

Bennett, C. A.
The 1945 McCormick Gold Medalist 251
Ginning mechanically harvested cotton ... 367

Bin floors, Performance of grain ... 417

Blaisdell, Fred W.
The design of soil erosion control structures ... 107

Brackett, E. E.
Tractor seats (letter) ... 330

Brooks, F. A.
"Remember the Reichsbanknote" (letter) ... 468

Brown, O. A.
Some new sweet potato machines and equipment ... 280

BUILDINGS, Farm (See Structures)

C

Carnes, Howard F.
Automatic feed control for feed grinders ... 325

Carreker, John R.
Construction and management of farm ponds ... 63

Christiansen, J. E.
Obtaining soil cores for permeability tests ... 153

Christy, Donald
Ag engineer speaks from the farm (letter) ... 68

Clark, Marion W.
A terracing challenge to engineers ... 187

Combine, The self-propelled ... 195

CONSERVATION, Soil and Water (See also Drainage, Erosion Control, Hydrology, Irrigation, Soils)
Construction and management of farm ponds ... 63
Wickard on water (E) ... 139
Water policy in relation to western agriculture ... 141
Factors that affect surface sealing and infiltration of exposed soil surfaces ... 156
The effect of structure changes in Houston clay on plant development and water relationships ... 193
Water management for food production and security ... 246
Conservation factors in flood-control planning ... 372
Functions of the soil conservation districts in drainage ... 456
Soil and water losses as affected by rainfall characteristics ... 463

Construction work, Shall the farmer be encouraged to continue doing his own ... 25

Convertible farm buildings ... 357

Cooper, A. W.
The dynamic properties of soils ... 21

Corn, Fire hazards relating to hybrid seed ... 74

Corn to air flow, Resistance of ear ... 19

Cotton, Ginning mechanically harvested ... 367

Crow, Ray
Factors in the choice of fence posts 362

Cultivation of row crops, Flame ... 147

Curriculums, Accreditation of agricultural engineering (committee report) 515

Curry, Norval H.
Convertible farm buildings ... 357

D

DDT, Improvements in equipment for killing both larvae and adult mosquitoes with ... 459

Dean, Daniel
Not so crazy (letter) ... 332

Decorticator, A portable tung nut ... 413

DEHYDRATION, Natural and Artificial (See also Drying)
Economics of processing animal feed by mechanical dehydration ... 103
Mow hay drying ... 366
Some engineering aspects of blanching cut fruits for dehydration ... 421

Dehydrator as a heater, Using 113

DeLeon, Paul
Economics of processing animal feeds by mechanical dehydration 103

Diversification, Vertical farm 61

Drainage, Functions of the soil conservation districts in 456

DRAINAGE, Land
Farm drainage in the future 111
Drainage and irrigation recommendations 120
The design of drainage systems 196
"Drainage and irrigation recommendations" (letters) 205
Drainage and irrigation recommendations 284

Driftmier, R. H.
Postwar opportunities in agricultural engineering 277

DRYING—Driers
Mow curing of hay 104
Resistance of hay to airflow 369

E

Ebersole, J. C.
Prerequisites of a sweep stubble-mulch tillage implement for the southern high plains 249

"Economic feasibility" of drainage and irrigation projects 361

EDITORIALS
Family farm, inc. 9
Not that kind of labor 9
Power to destroy 9
Rural industry 53
Not a national poorhouse 53
"Culture in agriculture" 53
Building vs. buying 99
Let's look at production 99
Meetings in absentia 99
Royalty road 99
Wickard on water 139
Obsolescent farmers 139
Power for peace 139
Earning vs. book value 139
Indictment of the plow 185
Why so many jobs? 185
The two-family farm 185
Against appeasement 237
Chore power 237
Red schoolhouse ceiling 237

Remember the reichsbanknote 405
Farm building construction 455
About those boomlets 455
Haying upheaval 499
Less machinery likely 499
Patents and progress 499

Education, Industry requirements of professional agricultural engineering (committee report) 504

Ekblaw, K. J. T.
The postwar farm structures situation 148

ELECTRIFICATION, Rural
(See also Refrigeration)
Farm applications of bactericidal lamps 67
Relation of engineering to the manufacture and distribution of farm electric equipment 69
A new concept in farm lighting 189
Chore power (E) 237
A farm lighting survey 282
New developments in hay harvesting and curing 501

Electronics in postwar agriculture 202

Elevator-conveyor, The portable grain 320

Ellison, W. D.
Factors that affect surface sealing and infiltration of exposed soil surfaces 156

Elvehjem, C. A.
Vitamins and food processing 12

EROSION CONTROL, Soil
(See also Hydrology, Soils)
The design of soil erosion control structures 107
Indictment of the plow (E) 185
A terracing challenge to engineers 187
A comparison of erosion losses after turning under legumes and non-legumes 247
Methodology for soil tenacity and soil erosion studies 465
A method for designing vegetated waterways 516

Extension, Recommendations for agricultural engineering 114

Extension work for better farm housing 71

Extension work in farm machinery 201

F

Fence posts, Factors in the choice of 362

Fertilizer distributor and planter for the southern farmer, A new 109

Filbert nut picker, Mechanical 151

Fire hazards relating to hybrid seed corn 74

Flame cultivation of row crops 147

Flax straw—a source of income and how to harvest 190

Flood control planning, Conservation factors in 372

"Fluxability" in buildings (E) 355

FOOD PROCESSING
The agricultural engineer's interest in farm food processing 11
Vitamins and food processing 12

Fruits for dehydration, Some engineering aspects of blanching cut 421

G

Giese, Henry
Convertible farm buildings 357
Discussion (Factors in the choice of fence posts) 364
The structural application of glue in framing farm buildings (part II) 507

Giles, G. W.
A new fertilizer distributor and planter for the southern farmer 109

Gin fan power calculations by use of a nomograph 290

Ginning mechanically harvested cotton 367

Glue in framing farm buildings, The structural application of (part II) 507

Goode, W. E.
Obtaining soil cores for permeability tests 153

Grain bin, Determination of band stresses and lateral wheat pressures for a cylindrical 321

Grain elevator-conveyor, The portable 320

Grinders, Automatic feed control for feed 325

Gross, E. R.
Performance of grain bin floors 417

Gull, P. W.
Flame cultivation of row crops 147

H

Hamilton, C. L.
Agriculture's safety challenge 145

Hamilton, E. W.
Some early A.S.A.E. history 204

Harper, W. A.
"Red schoolhouse ceiling" (letter) 294

Hay, Ralph C.
Recommendations for agricultural engineering extension 114

Hay and straw, field to storage, Handling baled 191

Hay and straw, Handling baled 241

Hay handling methods, A survey of ... 76
Hay harvesting and curing, New developments in ... 501
Hay, Mow curing of ... 104
Hay to air flow, Resistance of ... 369
Hay with an automatic tying pickup baler, Making ... 27
Hazen, Leslie E.
Postwar objectives for agricultural engineers (letter) ... 65
Heat loss in dairy barns, Door and window designs ... 24
Henderson, S. Milton
The structural application of glue in framing farm buildings (part II) 507
Hendrix, A. T.
Resistance of hay to air flow ... 369
Heth, S. C.
Flax straw—a source of income and how to harvest ... 190
Higgins, F. Hal
"Handling baled hay and straw" (letter) ... 241
Holman, C. V.
Relation of engineering to the manufacture and distribution of farm electric equipment ... 69
Honor Roll, A.S.A.E. War Service ... 159
Hurd, C. J.
Rural industry — A challenge for agricultural engineers ... 55
HYDROLOGY — Hydraulics
Factors that affect surface sealing and infiltration of exposed soil surfaces ... 156

I

IMPLEMENTS, Farm (See Machinery)
Indian agriculture, Problems in ... 294
Insulation and ventilation for animal shelter buildings, A method for designing ... 407
IRRIGATION
Drainage and irrigation recommendations ... 120
Obtaining soil cores for permeability tests ... 153
"Drainage and irrigation recommendations" (letters) ... 205
Drainage and irrigation recommendations ... 284
Kostiakov on prevention of waterlogging and salinity of irrigated land ... 327

J

Jackson, R. J.
Electronics in postwar agriculture ... 202
Jennings, B. A.
Mow curing of hay ... 104
Jezek, R. E.
A portable tung nut decorticator ... 413
Johnson, Arvid J.
Gin fan power calculations by use of a nomograph ... 290
Jones, Ray W.
Defends good plow-built terraces (letter) ... 366

K

Kable, George W.
The agricultural engineer's interest in farm food processing ... 11
Keeney, L. G.
Fire hazards relating to hybrid seed corn ... 74
Knipe, Fred W.
Improvements in equipment for killing both larvae and adult mosquitoes with DDT ... 459
Koeber, T. H.
The styling of farm machinery ... 17
Kostiakov on prevention of waterlogging and salinity of irrigated land 327
Krause, N. R.
Air cleaners and precleaners for engine protection ... 242
Krimgold, D. B.
What is there to know about farm ponds? ... 283
Kostiakov on prevention of waterlogging and salinity of irrigated land ... 327
Krueger, W. C.
Door and window design to eliminate heat loss in dairy barns ... 24
Kummer, F. A.
The dynamic properties of soils ... 21

L

Labor, Not that kind of (E) ... 9
Lighting, A new concept in farm ... 189
Lighting survey, A farm ... 282
"Livestock compound," Another ... 60
Loaders, Mechanical ... 192
Logan, C. A.
"Improved farm implements" (letter) 380
Lunde, R. N.
Mechanical filbert nut picker ... 151
Lyle, S. P.
Extension work for better farm housing ... 71

M

MACHINERY, Farm
(See also Erosion Control, Tractors)
The styling of farm machinery ... 17
A survey of hay handling methods ... 76
A new fertilizer distributor and planter for the southern farmer ... 109
Flame cultivation of row crops ... 147
Mechanical filbert nut picker ... 151
Flax straw—a source of income and how to harvest ... 190
Handling baled hay and straw, field to storage ... 191
"The self-propelled combine" ... 195
Extension work in farm machinery ... 201
"Handling baled hay and straw" ... 241
Mechanization of sumac leaf harvesting and processing ... 243
Prerequisites of a sweep stubble-mulch tillage implement for the southern high plains ... 249
Some new sweet potato machines and equipment ... 280
Gin fan power calculations by use of a nomograph ... 290
"Improved farm implements" (letter) 380
A portable tung nut decorticator ... 413
An improved sprayer boom for potatoes and other row crops ... 453
Farm wagon gears ... 455
New developments in hay harvesting and curing ... 501
Manson, P. W.
Farm drainage in the future ... 111
Marsh, G. L,
Some engineering aspects of blanching cut fruits for dehydration ... 421
Mechanization of sumac leaf harvesting and processing ... 243
Mechanization to farm structures, Relation of ... 16
MEDALISTS, (C. H. White, C. A. Bennett) The 1945 A.S.A.E. Gold ... 251
Milk on dairy farms, The direct-expansion system for cooling ... 511
Morse, True D.
Vertical farm diversification ... 61
Mosquitoes with DDT, Improvements in equipment for killing both larvae and adult ... 459

N

Neal, J. H.
Soil and water losses as affected by rainfall characteristics ... 463
NECROLOGY
William Davis Collins ... 386
Frank A. Donaldson ... 386
Ralph H. Patty ... 474
Neubauer, L. W.
A firesafe, labor-saving livestock compound (letter) ... 23
Durability of redwood boards ... 203

Schaenzer, J. P.
Engineering farm refrigeration ... 317

Schroeder, E. W.
Making hay with an automatic tying pickup baler ... 27

Shafer, Fred F.
Functions of the soil conservation districts in drainage ... 456

Shedd, Claude K.
Resistance of ear corn to air flow ... 19

Slater, C. S.
Factors that affect surface sealing and infiltration of exposed soil surfaces ... 156

Slosser, John W.
Mechanical loaders ... 192
An improved sprayer boom for potatoes and other row crops ... 453

Smith, W. Forrest
Postwar opportunities in land terracing and related construction work ... 239

SOILS
The dynamic properties of soils ... 21

Sprayer boom for potatoes and other row crops, An improved ... 453

Steel fabrication for farm building frames, A new method ... 415

Steele, J. M.
Plow-built terraces ... 365

Stere, J. B.
Mow hay drying (excerpts from letter) ... 366

Strahan, J. L.
Shall the farmer be encouraged to continue doing his own construction work? ... 25
A method for designing insulation and ventilation for animal shelter buildings ... 407

STRUCTURES, Farm
Relation of mechanization to farm structures ... 16
Resistance of ear corn to air flow ... 19
Door and window design to eliminate heat loss in dairy barns ... 24
Shall the farmer be encouraged to continue doing his own construction work? ... 25
Another "livestock compound" ... 60
Extension work for better farm housing ... 71
Building vs. buying (E) ... 99
What's happening in farm buildings? ... 101
The postwar farm structures situation ... 149
Handling baled hay and straw, field to storage ... 191
Durability of redwood boards ... 203
Determination of band stresses and lateral wheat pressures for a cylindrical grain bin ... 321
Convertible farm buildings ... 357
Factors in the choice of fence posts ... 362
Rational design and research ... 405
A method for designing insulation and ventilation for animal shelter buildings ... 407
A new method of steel fabrication for farm building frames ... 415
Performance of grain bin floors ... 417
The structural application of glue in framing farm buildings (part II ... 507

Stubble-mulch tillage implement for the southern high plains, Prerequisites of a sweep ... 249

Sumac leaf harvesting and processing, Mechanization of ... 243

Sutton, John G.
The design of drainage systems ... 196

Sweet potato machines and equipment, Some new ... 280

T

TERRACING (See also Erosion Control)
Terracing challenge to engineers, A ... 187
Against appeasement (E) ... 237
Postwar opportunities in land terracing and related construction work 239
Developments in terrace spacing ... 285
Plow-built terraces ... 365
Defends good plow-built terraces (letter)—Ray W. Jones ... 366

TRACTORS, Farm
Air cleaners and precleaners for engine protection ... 242
Tractor seats (letter)—A. J. Bell ... 330
Tractor seats (letter)—E. E. Brackett 330

Tressler, Donald K.
Problems in freezing foods ... 13

Tung nut decorticator, A portable 413

Turner, Arthur W.
Federal agricultural engineering research 199

Turner, C. N.
New development in hay harvesting and curing 501

V

Vaugh, Mason
Problems in Indian agriculture 294

Veloz, L. P.
Farm application of bactericidal lamps 67

VENTILATION
Ventilation for animal shelter buildings, A method for designing insulation and 407

Vertical farm diversification 61

Vilensky, D. G.
Methodology for soil tenacity and soil erosion studies 465

W

Wagon gears, Farm 455

Walker, Phelps
Device for handling bales (letter) 424

War Service Honor Roll, A.S.A.E. 159

Waterlogging and salinity of irrigated land, Kostiakov on prevention of 327

Water management for food production and security 246

WATER RESOURCES
What is there to know about farm ponds? 283

Predicting changes in water-table elevation in peat land 292

Water-table elevation in peat land, Predicting changes in 292

White, C. H.
The 1945 Deere Gold Medalist 251

White, Hugh E.
"The self-propelled combine" (letter) 195

Wickard, Claude R.
Water policy in relation to western agriculture 141

Wilson, J. B.
Extension work in farm machinery 201

Witzel, Stanley A.
A new method of steel fabrication for farm building frames 415

Woodburn, Russell
The effect of structure changes in Houston clay on plant development and water relationships 193

A comparison of erosion losses after turning under legumes and nonlegumes 247

Z

Ziemer, G. L.
Conservation factors in flood control planning 372
